25X1A  
25X1A9a  
25X1A6a  
1. [REDACTED] telephoned to say that the trip which [REDACTED] is making to the Far East is scheduled for arrival in [REDACTED] on 13 September. He and [REDACTED] X1A9a are drafting a cable to send to the interested field stations.

25X1A5a2  
2. Mr. Harold H. Rubin, General Accounting Office, telephoned concerning his [REDACTED] business and agreed to send me a rough draft of that section of the report in which we would have an interest. (I have received the report and do not see that we can object to the indirect mention of us as "another government agency." I have also cleared this with Dick Bissell who agreed.) H

3. I attended a briefing at the Photographic Intelligence Center for Messrs. Stans, Schaub, Reid, Macy and Ecker, Bureau of the Budget. Mr. Stans appeared most impressed with this project and, in the conclusion, asked Dick Bissell whether he didn't think that we should be doing more of this kind of work. Dick explained the restrictions under which we had been operating and expressed our strong desire to do more with this project than had been permitted in the past. H

25X1A9a  
4. [REDACTED] telephoned to say that he would be admitted to Walter Reed Hospital tomorrow night for a few days to undergo some tests. [REDACTED] will be in charge during his absence. 25X1A9a

25X1A9a  
25X1A9a  
5. [REDACTED] called to tell me that in connection with a recent explanation which [REDACTED] gave to General Cabell concerning the handling of a CRITIC cable, General Cabell had expressed his desire to equip "L" Building to send the CRITIC cables in lieu of the present procedure of having them sent from "Que" Building. (I will follow up on this with [REDACTED] since I do not understand the implications clearly at the present.)
